Southern Print Progression:

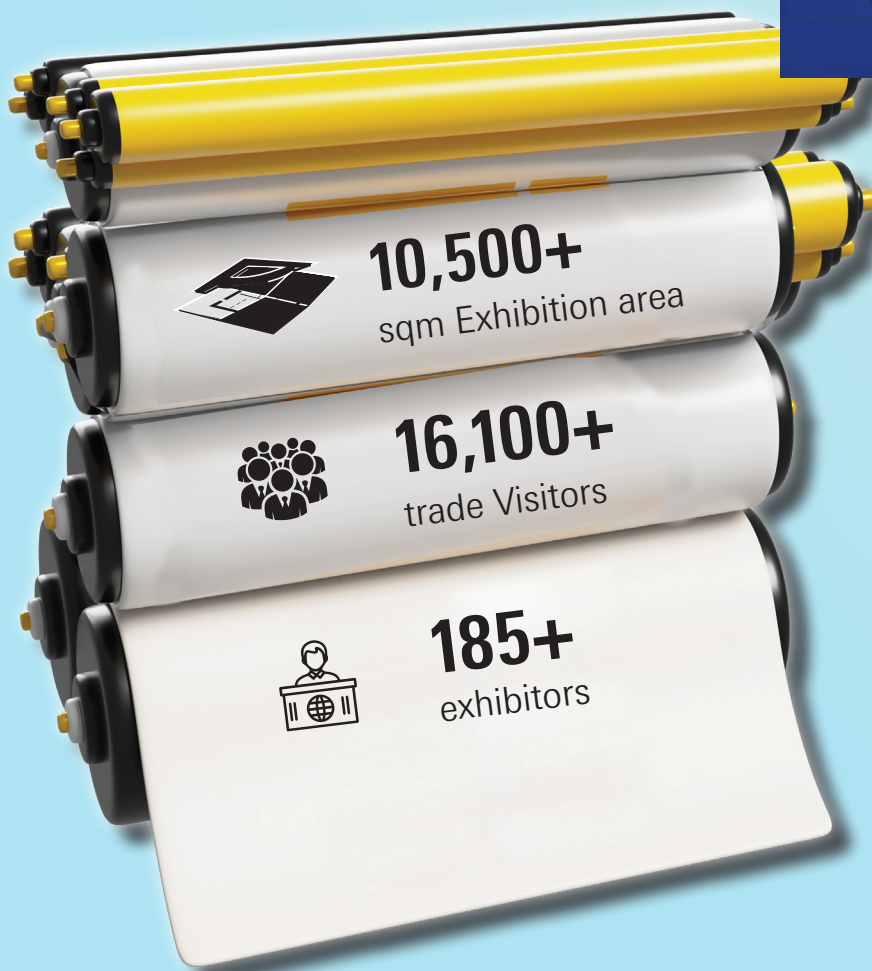

Designing the Future Roadmap for South India's Print Industry

South India's printing industry is at the forefront of a transformative era, marked by advancements and sustainable growth. With a rich history rooted in traditional printing methods, the region has embraced modern technology and innovative practices with ease, transforming itself into a hub of advanced print solutions.

As the industry continues to evolve, the South Indian Printing landscape helms the future of printing in India with AI driven solutions in print & packaging, Print automations, On-demand printing & much more.

Amidst this thriving landscape, PrintExpo 2026 stands as a distinctive platform to showcase and integrate advancements in the printing industry, leading to a unique convergence of print technology & business!

PrintExpo 2026: Expanding the Print & Signage Universe

Following the overwhelming success of PrintExpo 2025 with 16,000+ trade visitors and a legacy spanning over 15 years, PrintExpo has firmly established itself as South India's leading B2B print industry event.

The 2026 edition promises to be bigger and bolder, now co-located with Media Expo, bringing together the entire ecosystem of print, signage, and visual communication under one roof. This powerful collaboration expands the universe of opportunities for businesses, unlocking access to the latest in next-gen printing technologies, automation, and high-ROI solutions.

With an even broader industry footprint and participation from key stakeholders, PrintExpo 2026 will be the definitive platform to connect, collaborate, and innovate for the future of print.

More than Just a Tradeshow!

From digital printing solutions and AI-powered software to automation tools that enhance efficiency and sustainability, PrintExpo is where the industry meets innovation. In the last 14 years, PrintExpo has evolved itself into much more than just a trade show.

The 2026 edition will further witness the true convergence of Print, Tech & Vision with intriguing knowledge sessions and masterclasses diving deep into the theme of AI in printing & mapping the next-gen print solutions for optimised outputs.
